

Rajni Rughwani

AI Product Builder & Analytics Lead

London, UK · British Citizen rajnirughwani@gmail.com linkedin.com/in/rajnirughwani rajnirughwani.com
github.com/RajniRughwani

PROFILE

Product analyst turned AI builder with 6+ years in UK fintech and a proven track record of turning data into commercial outcomes. I combine deep analytical rigour with hands-on AI development — building and shipping production AI products using Claude, ElevenLabs, and modern web stacks. I'm looking for an AI product, strategy, or adoption role where I can work at the frontier of what AI makes possible.

PROVEN IMPACT

£190M Annual transfer-ins influenced at Smart Pension	£5M ARR uplift via pricing optimisation	 1st Company hackathon — ML model now in production	2x Spot Bonus — Best Performer (Q2 2025, Q1 2026)

AI PROJECTS BUILT & SHIPPED

Move AI — Home Moving Assistant

Live in Production

[Anthropic Claude \(chat + Vision API\)](#) · [ElevenLabs](#) · [Simli WebRTC](#) · [Supabase](#) · [Resend](#) · [React + TypeScript + Node.js](#) · [Railway](#)

Full-stack AI product for UK home movers — 6.7M people move annually, each facing 100+ admin records to update. Built and shipped across three months:

- **Voice assistant Alice** — ElevenLabs + Simli real-time lip-sync avatar, designed for users 55+, guides through council tax, energy switching, and NHS GP registration
- **Document scanner** — Claude Vision API extracts account numbers, addresses, and dates from uploaded PDFs and photos, auto-filling the relevant checklist task
- **Prompt evaluation** — tested and iterated Claude prompts across all accessibility modes (plain English, step-by-step, large text, multilingual) to validate consistent output quality across user types
- **Smart checklist** — 100+ tasks with priority sorting, email dispatch, and AI-generated insights per category

PamperPuff — Social Media AI Agent

Live · Production

[Anthropic Claude API](#) · [Meta Graph API \(Instagram\)](#) · [Google Drive API](#) · [Python](#)

AI agent with **human-in-the-loop approval workflow** for a nails, spa & wellness brand. Monitors Google Drive for new content → generates on-brand Instagram copy with Claude → notifies the client for review and approval → publishes via Meta Graph API on confirmation. Designed for responsible AI deployment: the human retains final control while eliminating the manual creation effort entirely.

Transfer-Out Risk Predictive Model

 Hackathon Winner · Production

[Python](#) · [Scikit-learn](#) · [Pandas](#) · [Snowflake](#) · [AWS](#)

ML model detecting early signals of pension transfer-out risk, deployed in production at Smart Pension. Enables proactive product and outreach interventions for AUM retention.

AI Morning Briefing — Automated News Agent

Live

[Anthropic Claude API](#) · [Python](#) · [macOS Scheduler](#) · [Resend](#)

Automated daily AI news agent: aggregates stories, deduplicates across days, generates a 10–15 min analysis briefing via Claude, and delivers by email with a 3-minute voice audio summary.

EXPERIENCE

Lead Product Analyst — Growth & Retention

Apr 2022 – Present

Smart Technology Holdings (Smart Pension) · London, UK

- Influenced **£190M in annual transfer-ins** — identified 40% failure rate in the transfer journey, drove cross-functional fix across Product and Engineering
- Delivered **£5M ARR uplift** through pricing optimisation — identified 12% of B2B customers suitable for repricing via behavioural and revenue analysis
- Built and deployed **predictive transfer-out risk model** (Python/scikit-learn) — won company-wide Hackathon, now live in production protecting AUM
- Automated 40–50 reports via Python + AWS + Slack bot, reducing manual effort by 30%
- Designed and analysed A/B experiments on deferred members and high-intent users, influencing product roadmap with causal analysis
- C-suite partnership — presented findings and recommendations directly to CEO, COO, and SLT
- Awarded **Best Performer Spot Bonus twice** — Q2 2025 and Q1 2026

Business Intelligence Analyst

Mar 2021 – Apr 2022

Bounce Interactive · London, UK

- Built SQL/Python automated reporting pipelines, reducing manual effort by 30%
- Designed KPI dashboards for product, finance, and operations leadership
- Conducted chargeback analysis and implemented customer-centric measures to reduce recurrence

Business Data Analyst (Freelance)

Nov 2020 – Mar 2021

Upwork · London, UK

- Delivered self-serve Tableau dashboards for fintech and services clients — **42% increase in targeting efficiency**
- Achieved Top Freelancer status within 60 days

Client Relationship Manager

May 2018 – Dec 2019

ICICI Prudential Life Insurance · Mumbai, India

- Designed segmentation models increasing monthly sales by 30%; awarded Best Relationship Manager 2019
